

### **What should I do if I have a medical need after-hours?**

Calling the office phone number after-hours will connect you to our call service, who will page the provider on-call. You will speak to a provider who can often take care of your needs over the phone. If this is not the case, the provider will help you determine the best place to go to receive further care. Our providers share call with another office of three providers. If your provider is not on-call, the information discussed in the phone call will be shared with your provider the next business day.
